

# Project Fact Sheet #15

**Project Name:** Killian Hill Road to Colima Way Parallel Access Route

**Cost:** \$858,000

**Detailed Description and Justification:** This project shall serve as a form of “Access Management” that can be associated with the GDOT Safety project, which removes the reversible lane system. In order to promote pedestrian activity within this Corridor the design for this project will include sidewalks, pedestrian crossings, pedestrian refuge islands and landscaped buffers. This project is included within the “Five Year Implementation Plan” for the Highway 78 LCI Corridor Study. The proposed project will provide a parallel service road, north of US 78 between Killian Hill Road and Colima Way.

**Service Type:** Parallel Access Street

**Sponsor:** CID/Private/County/State/Federal

**Jurisdiction:** Gwinnett County

**Target Completion Date:** 2010

**Corridor Length:** approximately 800 feet
